**Brief information about the company:**

Fire Energy Group was founded in 2004 and is headquartered in Alcalá de Henares (Madrid), with offices in Germany, Italy, Ghana, China, Hong Kong and USA. We are one of the largest developers and distributors of solar products in Europe.

Our global marketing extends to over 30 countries and regions, our products are sold in traditional markets for renewable energy such as Germany, Italy, Spain, Czech Republic, France and the United States as well as in emerging markets to which Israel, Turkey, Bulgaria, Slovakia, Slovenia, Great Britain, Greece, South Africa, Australia, Morocco and South American countries belong.

The Fire Energy Group provides high quality mono-and polycrystalline solar modules, inverters, batteries and all other components needed for a solar system. In addition to the leading brands such as Canadian Solar, Eging, LDK, Jinko, Platinum or Shunda Global, we also offer our own Fire Energy modules.
