¹You can find an overview of your options in the elective area "Specialisation" in the current module handbook for the Master EES (<https://www.uni-bamberg.de/en/maees/orders-and-documents/>).

²As an alternative to the module "Advanced Econometrics" in the second semester (summer semester), the module "Introduction to Econometrics" can be completed in the first semester (winter semester). Therefore, the complete "Core Curriculum: Economic Theory and Methods" (module group MAEES1) can be completed in the first semester.
