A) Enter your module statement on the next page. It should be 400 to 600 words long and written in appropriate academic style.

In your statement, you should reflect on

- \* your specific reasons for the choice of the two module components,
\* any connections/parallels/contrasts between the contents of the two components,
\* your individual understanding of the integration of the module into your studies in the subfield, and
\* the potential benefit of the module for your future studies and career.

When completed, save a copy for yourself and send a copy to the lecturer of your Seminar (8 or 6 ECTS) by email attachment.

B) Alternatively, if you have given an oral presentation in the Übung (practical seminar), you can replace the statement on the next page with an electronic version of your presentation handout or slides.

I am attaching my oral presentation handout/slides in place of the module statement.
