

Kontaktstelle Studium und Behinderung

*Studying at the University of Bamberg with a
disability and/or chronic illness*

Mehr wagen.
Mit Unterstützung studieren.
www.uni-bamberg.de/bafbs

Target group

- Students with **disabilities** (e.g. limited mobility, hearing and visual impairments) and **chronic illnesses** (e.g. diabetes, epilepsy, asthma, rheumatism)
- Acutely ill students (e.g. arm fracture after accident)
- Mentally ill students (e.g. anxiety disorders or depression)
- Students with ADHS, dyslexia and dyscalculia

Compensation for disadvantages is possible after six months of illness

Examples of measures to compensate for disadvantages

- Extension of the exam time
- Possibility to interrupt exams with breaks that are not counted towards the completion time
- Possibility of co-determination with regard to date, location, supervisor (e.g. specific gender)
- Examinations can be held in a separate room
- Extension of deadlines for the course of study
- Authorisation of aids, e.g. assistive technologies
