GASTVORTRAG

Toward a Digital Prosopography The Senatorial Inscriptions of the Colosseum

Prof. Dr. Silvia Orlandi (Sapienza Università di Roma)

The Colosseum inscriptions concerning the senatorial seats on the podium of the amphitheatre contain a substantial amount of prosopographic information, which has, in many cases, altered and often enhanced our knowledge of the Late Roman Senate. However, this information has not yet been incorporated into a fundamental reference work such as *The Prosopography of the Later Roman Empire*, underscoring the need for a new, updated, and digital edition of this essential scholarly tool.
