Test 2

In order to borrow items, you will need your library card. You cannot check out items without it. For self-checkout you also need the password of your library account.

- As for **open access shelves** at the branch library, you may collect the books from the shelves yourself. You may check out books at the circulation desk or use a self-service machine.
- Stack room and open access shelves of other branch libraries:** Please order these items via the Online Catalogue to "your" Branch Library.
- As library employees collect these items from the shelf, you cannot pick them up immediately after placing the order, but usually the next day. Items requested on Friday can be picked up on Monday.
- Department reference books ("Handapparate")** are not checked out through the regular system. Please contact the respective chair/faculty directly. *(To see the location overview, please click on the "Wegweiser" signposts in the Online Catalogue.)*

The period of time in which media from the closed stacks or other branch libraries as well as requested books or interlibrary loan items are made **available to pick up** is **7 workdays** (workdays are from Monday to Saturday).
