3. FlexNow and Univis

FlexNow

- Usually, registration for courses via FlexNow is not necessary (exception e.g. language courses, seminars).
- Registration for the courses in the Virtual Campus (VC) is necessary to get access to the teaching materials (scripts, teaching videos etc.) and organisational information.
- In addition, attendance in the first week is strongly recommended!
- Not all courses are offered every semester. You can always find an overview in the current EES module handbook, but.....
- Even if a lecture is not offered in a particular semester, a written exam is usually offered!

3. FlexNow and Univis

You have to **register for the exams via FlexNow** every semester

- No place for you in the exam without your registration
- Late registrations cannot be considered
- Maximum three attempts per module
- Retests can be set by you by actively registering for the exam (this means that if you fail, you will not be forced to repeat the exam in the following semester)

3. FlexNow and Univis

Univis is the search mask of the University of Bamberg:

- Persons
- Institutions
- Courses
- Rooms
- Timetable

4. Virtual Campus (VC)

Virtual Campus (<https://vc.uni-bamberg.de/moodle/>)

- Access to teaching materials (scripts, teaching videos etc.) and organisational info.
- A very important course in the Virtual Campus:
“Master EES Info”:

- For all other modules (lectures), you usually only need to register for the written exam.
- Be careful with seminars (registration in the first week of lectures) and non-economics courses.
- You only receive ECTS if you pass the exam!

6 Important in the First Semester

- The Basic Programme can (only) be taken in its entirety in the first semester if you start in the winter term.
