## Description of the company/institution

10 years old LiteraturHaus in Copenhagen was the first literature house in Scandinavia and still the only one in Denmark. We are young, the audience is young and the literature we present is mostly young. Often presented in combination with music, video-art, film, food, dance and other art forms. We work informally and hard as we have events nearly every day in the season.

## Facts and figures about the company/institution

| October 2015: 26 events, 1,300 visitors, 3 interns, 25 volunteers, rehearsals, TV-shootings, receptions, release-parties, tango, lectures and poetry from all over the world |

## Requirement profile

Must be interested in literature in a very practical way. Setting up events, advertising them, organising during the day. We start at 11:00 but don’t know when the day will end.

## Further special requirements on candidates

You have to talk more than one language. We try not to speak English but the visitors might want to. We rather speak German, Swedish, Norwegian, Danish or some French/Italian.
