Placement Test

Students will be admitted to their courses upon completion of a placement test before the beginning of the semester. The questions slowly become harder in the later parts of the test. There are a total of 90 questions in the test. The time limit for the placement test is 60 minutes but students can submit the test earlier if they have finished. Students can return to any part of the test to check their answers at any point before they submit their test.

Test Results

No certificate will be issued for the completion of a placement test. The test cannot be “passed” or “failed”. Instead, after the evaluation of the test, the results will be posted on the Language Center (*Sprachenzentrum*) website with a score out of 90 and the CEFR level (B1, B2 etc.) you should be working at. When you have the confirmation of your CEFR level, you can register for a course at the correct level.

If you have already taken an English course at the Language Center, you do not have to take a placement test again. Results of the test are valid for four semesters.
